Who We Are

Headline
A National Ecosystem for Community Transformation

Subheadline
Uniting communities, organisations, and partners to drive inclusive and sustainable socio-economic development across Malaysia.

Body Copy
MUKMIN is a national coordinating ecosystem that brings together NGOs, civil society organisations, chambers of commerce, institutions, global think tanks and impact organisations, alongside grassroots community networks including surau, madrasah and mosques across Malaysia under a shared mission to advance inclusive and sustainable development.

Anchored in collaboration and collective action, MUKMIN serves as a connector between communities, institutions, industry, and ecosystem partners — aligning ideas, mobilising partnerships, and transforming community-driven efforts into scalable initiatives with long-term impact.

Through a structured ecosystem approach, MUKMIN strengthens pathways for socio-economic mobility, education and talent development, leadership, entrepreneurship, innovation, and community cohesion.

More than a movement, MUKMIN represents a coordinated national effort to build resilient communities, unlock opportunities, and create sustainable progress for future generations.
